#### Editorial.

Hi all.

Still under lock down and it doesn't really seem to be getting much

My normal comment at this time is usually about peace for the parents with the kids all back at school, but from what I have heard from the daughter in law, she has had to virtually go back to school herself as the way kids are taught now is totally different to what she learnt, so it is a case of the blind leading the blind while she is home schooling the kidlet whilst trying to do her own work.

We are very fortunate living in the area we are in with all the space between properties and at least being able to get into yards for fresh air and exercise. I feel for the people in units who are really locked in, especially in the massive high rises in Sydney and overseas. No getting away from close contacts in those buildings.

Sorry for the delay in delivery this month. Totally me and not being in the mood to do the paper. May is not a happy time for me. Memories of lost friends and family.

I was surprised to have so much come in for this month, didn't think I would be able to fill the pages, but ended up with reports, albeit a bit smaller than usual, from most of article submitters and a full issue. Watch out for ticks. I have found one, a cattle tick, on Timidthy and this is now ideal weather for them to start popping up. Warm after rain, along with snakes!

I have been trying to get my jungle mown, and glad that the grass has stopped growing a bit, so I can battle on with weed eradication and mowing for maybe the last time before winter.

Lots of dead trees to lop and cut up for fire wood after they died during the drought. Will be really putting my little chain saw through its paces for a while. Not big enough for really thick things, they can wait for the kid to come visiting, but great for standard size tree trunks. Certainly beats trying to do it all with the hand saw.

I do hope you are all well, surviving the virus, kids at home and

Time to cuddle under a blanket together and watch TV or read. To all the mums out there, my best wishes for a fabulous day on Sunday. Hope you are all spoiled and loved by your kids. I know there are times when we wish we could dispose of them, but they are on the whole, great to have and enjoy.

'til next month

#### Free Petrol

A petrol station owner in Ireland was trying to increase his sales, so he put up a sign that read, 'Free Sex with Fill-Up.'

Paddy pulled in, filled his tank and asked for his free sex. The owner told him to pick a number from 1 to 10. If he guessed correctly, he would get his free sex.

Paddy guessed 8, and the proprietor said, 'You were close. The number was 7. Sorry. No sex this time.'

A week later, Paddy, along with his friend Mick, pulled in for another fill-up. Again he asked for his free sex.

The proprietor again gave him the same story, and asked him to guess the correct number.

Paddy guessed 2. The proprietor said, 'Sorry, it was 3. You were close, but no free sex this time.'

As they were driving away, Mick said to Paddy, 'I think that game is rigged and he doesn't really give away free sex at all.'

Paddy replied, 'No it's genuine enough Mick. My wife won twice last week.

#### **Mothers Day**

The sun is shining brightly It's a bonza day to-day The autumn leaves are falling In the fields where flowers sway I'm strolling in my garden In search of a rose I want a pretty one A dew kissed one that really glows It's for a special lady On this special day This rose is for my mother dear For it's her day to-day For she's so understanding So loving, sweet and kind A better pal than your mother You will never find She's the greatest treasure' That we have here on this earth And we've been her life's pleasure Since the minute of our birth

She's guided our footsteps Since our cradle days There is no love like a mother's love For it is true always So don't forget your mother On this very special day Show her that you love her In your own special way A kind word or a message Will bring the sunshine to her door And she'll be happy and so proud Of the ones that she lives for Now if your mother dear Has been taken from down here To join the angels Up there on Gods throne Wear a white rose just the same In memory of her name And all the happiness She brought into your home

Now there are many wonders In this great world of ours The beauty of a sunset A rainbow after showers There's Old Mother nature With flowers, birds and trees And there's another million wonders With beauty just like these But of all the great wonders That this old world has ever known The greatest wonder of them all Is your mother dear at home No one can ever take her place So treat her kindly while you may The master up in heaven Will send for her one day Shower her with love and kisses And tell your mother clear That you love her and she's in your heart Every day of every year

#### **Nabiac Sustainability Survey results**

Thank you to everyone who responded to the Nabiac Sustainability Survey. Responses indicate a high level of interest in local sustainability issues, with over 80 people contributing, and lots of very positive and valuable feedback from all ages.

Preliminary results indicate that sustainability is important to 90% of those who completed the survey. The majority of remaining responses selected 'unsure' when asked how important sustainability was to them personally. When asked why sustainability was important, many people were concerned about current practices impacting the ability of future generations to enjoy the same quality of life.

When asked 'what is sustainability', popular themes emerged as important standouts: sustainably managing the consumption of our natural resources and the associated minimisation of waste; the improvement of environmental/ecosystem health generally; the improvement of our waterway health including stormwater, creeks, rivers and oceans; and more specific examples like sustainable agriculture and renewable energy.

High interest was recorded in most of the suggested 'future community projects'. Some popular examples include: sustainable farming practices in local agriculture; community owned/run renewable energy projects; future education on sustainability for the community; improved wildlife habitat and ecosystems; and local businesses using sustainable products or processes.

All responses provided valuable information that will inform the direction of the Nabiac Sustainability Plan, stay tuned for progress on this in the coming months

## Artists of Wallamba Inspire ~ Create ~ Connect

With changes happening so quickly in March due to Covid 19, the Artists of Wallamba exhibition that was installed at Macleay Art Gallery in Gladstone on 15<sup>th</sup> March had to be de-installed a week later! What has been amazing for us all to see in these hugely challenging, sometimes frightening and sad times, is the way that creativity has flourished. People of all backgrounds and ages have found wonderful ways to share music, dance, art, humour and words to uplift each other and to make us all laugh. Laughter is the 'best medicine' and creativity is 'food for the soul' in times like these. So many are enjoying virtual concerts and exhibitions around the world.

#### ARTIST OF THE MONTH FOR MAY:

**Ray J. Warner** is a member of Artists of Wallamba, and a local identity with an amazingly diverse creative background. Born in Raymond Terrace, Ray has done everything from leather work, cement sculptures, jewellery making, metalwork, designing and making recycled timber creations, airbrush painting, antique restoration, and acrylic and oil painting!

Leaving school in the late 60's, Ray headed off to a 6,000-acre sheep and cattle farm between Kempsey and Armidale, working as a general hand in all areas of the property, gaining valuable skills and a passion for the land. Always pulled between city and country, he'd often end up back in the Hunter area over the years. With a natural talent for science, an understanding of engines and hands-on skills in metalwork, he gained a position in the State Railway workshops repairing locomotives, eventually ending up in the office, when management found he could touch type, creating the job sheets for engineers dismantling and reconditioning the huge and complex locomotive engines!

With a mate owning a leather workshop in Newcastle, Ray began working with leather initially fashioning himself a pair of 'roman sandals' - all the rage in the 1970's. One pair of sandals led to an order from a friend, then to the making of belts and handbags, ongoing sales, commissions and the developing of the craft to gallery level. Ray was asked to submit to the von Bertouch gallery in Cooks

Hill, selecting a coffee table with a hand carved leather top and mirror →. In expanding to oil and acrylic painting, he became a regular exhibitor in galleries throughout the Hunter region. The major leather pieces would take 200 – 400 hours to complete!

With his mother in the antique business for nearly 20 years, and

Phone: 6559 1391 Mobile: 0427 007366

operating a number of retail stores around the Hunter, Ray learned antique restoration, refining his metalwork skills to restoring antique jewellery. Returning from another country stint on a 3,000-acre property between Dungog and Gloucester, Ray leased extensive workshop premises in Maitland starting up and running a highly successful antique restoration business for the next 7 years. Here he finally had the space to work on ferro cement sculptures and recycled and reproduction timber furniture, completing many commissions. It was also a time when his paintings were selling via Maitland galleries.

One night after work, Ray was attacked, a case of mistaken identity. He was fighting for his life in hospital. As Ray says "Life changed overnight". Add to this Ross River Virus, Q fever, an Eastern Brown snake bite and ongoing issues with tick poisoning, and Ray is left with health issues that greatly affect his life.

Ray with touring companion, Sprocket, circa 1984

Still, with all of this, many passions remain. Ray first rode a motor-cycle around the age of 8 or 10. He's lost count of how many motor-cycles he's owned, but loves the feel of them – riding them, or pulling them apart to repair. Riding a horse is somehow akin to riding a motor cycle he says, and I wondered if it's to do with the freedom, being unencumbered? "Perhaps," he says, "I've never really thought about it that way. I think I see the motorcycle as the modern-day horse." Ray's knowledge in this area led him to volunteering for 2 years at The Motorcycle Museum in Nabiac, something he greatly enjoyed – being with the vehicles, knowing their history and being able to share that with museum visitors.

Ray is also a flute player, self-taught as a sandal-wearing long-haired hippy in 1972! I ask if he was inspired by *Jethro Tull*, and he laughs. He's had the opportunity to step up and play guest spots with musos from around the world and a couple of years ago won the Open Mike at the Krambach Pub New Year's Eve gig.

Meanwhile Ray, who studied plant biology and propagating for 10 years, is

making a project of his garden along with rejuvenating his 140-yearold shed to make room for the next creative projects. He's already bought some cement. Can't wait to see what results!

#### NABIAC PHARMACY NEWS

Dear patients and customers of Nabiac Pharmacy,

Thanks for your patience over the very trying and extremely busy past few weeks. I apologise for not providing the same level of courteous, professional, service and care as we would like to.

I would like to assure you that I have taken every step that I thought possible to help prepare ourselves and the community for the current situation. Over the next few weeks and months we will need to change the way in which we help you. Please check our Facebook page for details and any notes and signs in and around the pharmacy. The situation is changing by the day and we can only do our best as a community and trust our leaders and their decisions.

The safety of our patients and customers is always the number one concern whenever dealing with your health. This is even more so now. We would like to help you minimise any contact with us to the highest degree. This is mainly for your protection, and also ours. We have many ways in which we plan do this.

We were the first community affected by the Bushfires. If we help each other the same way as we did then, I know we will be better for it. Please keep safe.

Many thanks,

Tim

#### L\_\_\_\_\_ WALLAMBA CWA REPORT

Another month has come and gone since the last Wallamba CWA Branch report was written and my how the World – as we know it – has changed because of the Covid-19 pandemic.

The Branch has been advised not to go ahead with meetings at this time and has also included the State Conference which had been scheduled for early May in Newcastle.

The Sydney Royal Easter Show was also cancelled and this is usually a great Fund Raiser for NSW CWA Association with its canteen and famous scones and they were hoping to set another record this year but it wasn't to be.

In its place Head Office Executive decided to replace it with A Virtual Scone Fund Raiser and Wallamba CWA Branch has supported this endeavour with \$200 – funds raised from this effort will go towards the Disaster Relief Fund helping drought and fire affected famers in New South Wales.

President *Margaret Weller* has mentioned the folk over 74 years of age shouldn't forget to do their bowel screen test – the best way is to ask your GP or local chemist for a screening kit. Doing it could save your life.

This month we say Happy Birthday to members *Jill Hammond* for her day on April 7<sup>th</sup> and to Patron *Iris Cummings* for her day on April 20<sup>th</sup>. Also celebrating another wedding anniversary is Branch Treasurer *Mary Webber* and her hubby *Trevor* – 52 years I am told. To you all hope it was a day to remember.

I hope the ladies and their families did their best to Salute Our Service Personnel – Past and Present – on Anzac Day.

President Margaret sent me her personal effort at her home via the attached photo and Margaret said her husband *Bruce* went to the Nabiac War Memorial (dedicated back in 1932) at Dawn where he recited the "The Ode of Remembrance'.

In closing I hope all the ladies will have a wonder-

ful *Mother's Day* come May  $10^{th}$  and hopefully we as members can all come together again very soon.

My thought for this month is "Of all the gits that life has to offer, a loving mother is the greatest of them all."

#### **News from Nabiac Second Chance Op Shop**

All the volunteers of Nabiac Second Chance Op Shop wish all the Mothers of our Community a wonderful Mother's Day. It's going to be hard on all of us not being able to see our beautiful families. Hopefully the light at the end of this long tunnel will be insight soon. There will be big celebrations to come.

Nabiac's Second Chance Op Shop remains closed until further notice.

Please no donations as there have been some left in the last month. We are unable process any at the present time.

We are sorry for any inconvenience. The health and safety of our members, volunteers and community is most important.

We will give any updates on a reopening date via our local magazine Across the Fence, Facebook and Nabiac.com website and a Community announcement on Great Lakes Radio 101.50 FM. Thank you for your co-operation during this time of closure.

Great news about all the donations that came in after those terrible fires last year, thanks to our wonderful community, they have been passed on to Rainbow Flat distribution centre of much needed items for victims affected by the fires directly and Blaze Aid at Wingham Showground, clothing, shoes, bedding, sleeping bags and camping equipment for all the great volunteers, mainly backpackers. They have been doing it tough with being isolated for 2 weeks at Wingham show ground and not been able to go to the shops for clothing etc. Once their quarantine was over they were sent to properties that were affected with the fires and volunteered their time in helping the community fixing fences and what an amazing job they have done. Thank you to all those volunteers.

Another big thankyou to our community and surrounding towns who generously donated these much needed items. All the Blaze Aid volunteers expressed their appreciation when they saw all the donations that we passed onto them.

Looking forward to seeing all our dedicated customers once the Op Shop and Shed reopens.

Please, all take care of yourselves and each other.

**Kathryn** and all our wonderful and dedicated volunteers at Nabiac Second Chance Op Shop.

Hello out there to all our friends and members of Nabiac Library. Firstly, let us say we are missing you all and the camaraderie we shared when you were able to come into our local library and share a love of books and information. We do hope you are all keeping well and finding new ways to live in this back to basics world in which we currently live. Many folk are out gardening, doing household clean outs and renovations; finding new ways to cook at home and generally looking for ways to keep busy whilst in the new world of home isolation. This is not an unknown event in our history: if one looks back to previous outbreaks such as the Spanish Flu or even the plague! However luckily, in this modern world of technology, we can now access some amazing support, including accessing our libraries from home!

Here is the latest support from our Nabiac Library Co-ordinator *Yasmine English* who has been working quietly (as she does) behind the scenes to keep us in the library loop.

If anyone would like to join me in a fireweed session.....

I've been lucky enough to get some exercise walking in the local forest. Something I've noticed is a massive sprouting of members of the Solanacea family. The weed species of nightshades, Devil's Apple

and tobacco bush are coming up under every tree a bird has ever stopped at. I did see a healthy regeneration of some of the native species in this family in the forest, especially the attractive

← Kangaroo Apple (Solanum aviculare) and quite a few

prickly nightshade. Some other weeds to watch out for are *inkweed* →(Phytolacca Octandra), Jimson weed (Datura stramonium)

and ←Noogoora

On the area wide

Landcare front there are some interesting things happening both in the flesh and on line. The MidCoast Council is funding the

Wallamba Bridges' Native Vegetation Project and work has commenced. A small team from TIDE (Taree Indigenous Development & Employment) started at the Dyers Crossing Bridge site. They are

doing strategic spraying, largely of Privet, Lantana, Madeira Vine and Wild Tobacco. They currently will focus on spraying there and at the Krambach site while the weather is ideal and then use cut and paint techniques at the Mobbs Lane (Firefly) and Clarkson's Crossing (Nabiac) sites. It is hoped there will be local support for follow-up once the project is finished. Hopefully removing these weed hotspots will mean there are fewer weeds being flushed down the river onto both private and public land.

On the virtual front if you're a Facebook user, Karuah & Great Lakes Landcare and Mid Coast 2 Tops Landcare Connect are both posting a lot of interesting information about bush care and land management on their pages. They normally also post information about workshops that are available. With the current situation all workshops have been cancelled but they are running live video and Webinars on various topics. If you don't 'do' Facebook information is available on the website, http://midcoast2tops.org.au.

Nabiac Landcare has temporarily stopped group working bees and morning teas but some members are working 'socially distant' from each other. We are not in a position to accept new members at the moment but the weeds won't go away so we'll be back.

When we return: Nabiac Landcare work each Wednesday (weather permitting) 8-9am to 11am, followed by morning tea. Membership is only \$2.00 plus an occasional donation to the morning tea fund and new members are always welcome. Training, tools and safety gear supplied. Give us a ring if you are interested.

#### MINIMBAH MATTERS

Minimbah Rural Fire Brigade has an announcement to make.

#### This is the 100<sup>th</sup> edition of Minimbah Matters

which was started in July 2007, coinciding with commencement of the building of our new Fire Station. We wanted to let the community know what was happening, how excited we were that it was happening, and what our plans were for the future. One hundred bulletins later and that ethos still applies. What matters in Minimbah, matters to us, and we hope it likewise matters to you. Thank you for your supportive feedback over the past almost 13 years.

Minimbah Rural Fire Brigade has a designated Brigade Area which is bordered by the Wallamba, Wang Wauk and Coolongolook Rivers, plus the Pacific Highway.

If your property is in the Minimbah Brigade Area **VES** 

you may light up that pile but you must remember it is your fuel and your responsibility.

As with most things, Terms & conditions do apply.

This is the ideal time to be preparing your property for the upcoming Bush Fire Danger Period. Being asked to "Stay at home" is an added bonus for many of us, because we can catch up on some of those chores that were perhaps being neglected a few months ago. A couple of key things to remember when planning to do some burning, are **preparation, communication, consideration and caution.** 

**PREPARATION**: Clearing around the area to be burnt is vital. It may only be a little heap of dry leaves, but it, like us, still needs to be isolated. If you are planning to burn a complete block of land or paddock, then a serious firebreak is required. It's all relative. It's all common sense.

COMMUNICATION: At least 24 hours' notice of your intention to burn is required to be given to your neighbours - those across the fence, across the road, or across the river. Take the personal approach by picking up the phone or knocking on their door. A post on Facebook can be a more far reaching notification, but you cannot be certain that those all-important immediate neighbours will see the message. NSW Rural Fire Service (RFS) also need to be advised and this can be done by calling the Mid Coast District Office on 1300 643 262.

**CONSIDERATION:** Consider what you will be able to manage when building a pile. Long and low is the way to go. Making sure you have sufficient equipment, water and helpers on hand to control the fire and contain it to your property is important. It's a good idea to have a phone handy – you may need it in just one-spark's time.

**CAUTION:** Check the current and predicted weather conditions before you light up. Be aware of predicted changing conditions. If fire escapes your boundary, or the area authorized as per a pile burn approval, it is an offence and will be reported to the Police.

When the job is done, and the fire is cold, then you can sit back, admire your handiwork and have that rewarding cuppa – or refreshment of your choice. You will have earned it, and we will appreciate it in the coming months.

For information regarding up to the minute requirements concerning lighting fires, please call

NSW RFS Mid Coast District Office 1300 Mid Coast (1300 643 262) Report emergencies to Triple Zero. (000)

#### FROM THE CAPTAIN:

#### Frequently asked question:-

"Why do we need to give 24 hours' notice to our neighbours and the NSW RFS?"

When you make a Triple Zero (000) call, it means that a Brigade MUST attend the fire or incident. Depending on availability, some Brigades might have to travel long distances. This means that if the call is NOT genuine OR called in haste before being sure that the call is warranted, these Volunteer Brigade Members have had their day upended for nothing. If you find that there is no longer a need for Emergency Service Assistance, then please re-ring 000 and cancel the request.

We are Volunteer Fire Fighters, which means we do not receive money as a reward for what we do to help protect the community. However, we are professionals, and will always turn out if we are able to. Responding to an un-necessary or ill-considered Triple Zero call is somewhat frustrating. Even though we don't get paid for it, what we do is considered valuable and so is our time.

**The Wallamba Watershed's History** – Another in a series of historical articles gleaned from the archives of the "Manning River Times, 1938, by Bob Mann

BULBY STUDS £100 BULL: Mr E.W. Milligan, proprietor of the Bulby Jersey Stud, probably has the distinction of breeding the only bull from this district which has realised over £100, the exact amount is not stated but Mr Milligan informs us that it was over £100. The purchaser, Mr W.F. Fuller of Bowraville, inspected Mr Milligan's herd in August last after having a tour around the principal Jersey herds of the North Coast. He then asked Mr Milligan for an option over one of his fine young bulls and was given same. Last week Mr Fuller arrived and went out to Bulby and again inspected the bull and eventually closed for him. The sale reflects great credit on the breeders Messrs E.W. Milligan and Son and is a credit to the Wallamba District for there are very few districts in the state which can say that a bull was sold for that figure.

MANNING SHIRE COUNCIL MEETING ROADS REPORT: December, 1938. Krambach - Bullock Wharf Road Reconditioning with a view to providing a bitumen surface over a length of 1,850 feet on the above road from a point opposite to the Bank of N.S.W. is being carried out in conjunction with the work on Main Road 110 referred to above. It is anticipated that the preliminary work consisting of boxing, grading and providing a gravel pavement, binding, watering and rolling on these two jobs will be completed in a few days and that both sections will be ready for sealing in January, 1939.

Main Road 110. Proposed surfacing through the village at Nabiac. The work in connection with this proposal was to commence on the 21<sup>st</sup> November. Gravel for the bare courses has been obtained from Nabiac Creek and the material for the surface courses from Failford quarry This is being obtained by day labour and hauled by trucks at contract rates

KRAMBACH, JULY 1939: Winter is here at last, frosts are to be seen each morning and their appearance has had that customary browning effect on the country pastures and crops alike. Wind in strong force has visited us also. I hope the visit shall be brief. Rain would be welcome by many for the replenishment of domestic water

supplies. Cream carting is light now and two days per week is the rule, farmers holiday period. Top dressing is becoming a practice now and much of the artificial manures applied are big improvements eagerly looked forward to in the late winter and spring and summer pastures.

Dancing is in full swing everywhere and many enjoyable and profitable functions are reported, but as you expect to hear from here we have the daddy of them all to let your hair down, the annual Catholic Ball. The arrangements being in the hands of Messrs J.C. Gallagher and Mr M.V. Stevens, president and secretary respectively and a band of willing workers. There was not a hitch to mar the pleasure of the night. The Gloomchasers Orchestra did the job true to label. Extras were played by Mrs Schneider and Miss C. Wisemantel, P. Schneider and Mrs Gallagher.

Concrete culverts are here in plenty. By the progress being made these shall be soon completed and won't we be pleased, too. Cowan's Crossing at Firefly is completed with a bridge and shall be open to the traffic in a few days. The structure is of the low level type and shall help greatly to assist traffic in this district when we have the rainy season again.

I notice the introduction of a new engine to Spears Garage. This is found necessary to provide us with more light . This progressive firm is going to help us to help ourselves.

The sales as usual here are being well patronised by buyers from other centres and making the returns to the producers very attractive for quality stock that this district has long been famous for.

I am sorry to report that we have two of our worthy citizens in the M.R.D. Hospital in the persons of Messrs *Charles Moy* and *Bert Hockey*. I trust they soon will be well again and back home.

CLARKSON'S CROSSING: Mr C.E. Bennett M.L.A. wrote to the meeting of the Manning Shire Council on Monday under the date of July 6<sup>th</sup>. I have received a letter from the Hon. Sec. of the P & C Association Nabiac on behalf of his Association enquiring about the possibility of a bridge over the Wallamba River at Nabiac. Would you be good enough to inform me whether the proposed bridge is included in the Shires programme or whether your council has come to any decision in regard to the matter. I feel certain that this bridge must be constructed in the near future and an effort made by your council to that end would receive my fullest support.

It was decided to ask Mr Bennett to take up the matter with the Main Roads Board.

Nabiac Farmers Market will be back in August (or maybe July) with full vigour! In the meantime, the committee are continuing to work toward creating an even better market experience for vendors and customers.

We are missing the markets and can't wait until things are rolling again.

We trust you are all finding positive ways to engage with life in isolation. This could be the perfect time to create a new product and forge new business interests.... you could be opening your new market stall ready for Spring.

We will keep our community posted on the next market date, via our Facebook page and here in ATF, and are looking forward to seeing you all whenever that may be! ... At the next market, remember your bags, granny trolley and that stallholders will not be there during the pandemic, however they will be there on the next market day, come rain, hail or shine. Thank you – market committee ©

\*Stall holder applications are open. Simply go to the website and download the vendor information forms from the website: nabiacfarmersmarket.com. Call: 0422 177 122. Email: nfmcommittee@gmail.com

#### Nabiac Memorial Neighbourhood Centre

Just a short report. The Neighbourhood Centre Committee meeting scheduled for April was cancelled. We have continued with maintenance projects, especially the drainage issues at rear of the building. Other routine maintenance has also continued.

Thank you to the Op Shop for the donations to those affected by fires and donations to the Blaze Aid volunteers. Also thank you to *Margaret Kellaher* who set up a street library at the Motorcycle Museum. Some of the Op Shop books have found their way to that library. You are welcome to take a book to read and to leave a book to share.

#### **CORONAVIRUS FUNNIES**

Just asked a 6 year old if he understands why there is no school. He said yes because they are out of toilet paper.

After years of wanting to thoroughly clean my house but lacking the time, this week I discovered that wasn't the reason.

You're not stuck at home, you're safe at home. One word can change your attitude and one cough can change your life.

Coronavirus has turned us all into dogs. We roam the house all day looking for food We're told "no" if we get too close to strangers and we get really excited about car rides.

This cleaning with alcohol is total b.s. NOTHING gets done after that first bottle

Kinda' starting to understand why pets try to run out of the house when the door opens.

#### KRAMBACH HALL RECEIVES \$7,000 TO INSTALL NEW FENCING

MEMBER for Myall Lakes Stephen Bromhead has announced funding under the NSW Government Community Building Partnership (CBPP) for **Krambach Hall of \$7,000** .

Mr Bromhead said the project will enable the hall committee to install protective fencing to prevent public access to the grounds under the hall's building.

"I am delighted to announce that the Krambach Hall will be a recipient this year which will allow them to complete this worthwhile project," Mr Bromhead said.

"The range of developments to receive funding under the program is very broad, with each one beneficial to their respective communities.

"We had a huge response with applications for a grant under the CBPP program and I've been delighted to personally phone successful applicants with the good news and hear first-hand the delight the news brings.

"Raising funds for many organisations is often very difficult, so this grant will enable the project to be completed, all to the benefit of the local community.

"I look forward to visiting the hall to see the work when completed." Mr Bromhead said

The 2020 Community Building Partnership Program opens for applications on 4<sup>th</sup> May 2020 and closes at 5pm on 12<sup>th</sup> June 2020. For further information on the 2020 program please visit

#### Council's plans to support ratepayers

MidCoast Council rate payers will soon receive their April rates notice, but the message from

Council is "please don't worry".

While Council has legal obligations to continue to send rates notices according to the pre-determined schedule, staff are particularly conscious of the stress the appearance of the rates notice may cause for those affected by COVID-19.

"We know that the coronavirus pandemic has left many people across the region without a job and that loss of income and the uncertainty around it is devastating," said MidCoast Council's General Manager, Adrian Panuccio.

"We want to assure everyone that although you will receive your rates notice as normal, please don't worry about it. Our finance department has been working on a range of measures to ensure paying rates doesn't have to be an extra stress right now."

To help support those who have been adversely affected by the COVID-19 crisis, businesses and ratepayers can enter into a payment arrangement or seek to amend an existing payment arrangement to suit their current financial position.

As a last resort businesses and ratepayers can also seek a deferral of payment for a nominated period of time, starting with three months but with the option to extend further as needed.

"Further to this we'd like to let our rate paying businesses and individuals know they can apply to have the interest waived due to financial hardship, where they have lodged applications for either the deferral of payment or the payment plan.

Mr Panuccio said Council will also not be starting any new debt recovery action for outstanding accounts against businesses or ratepayers experiencing hardship, including restrictions to water supplies.

"We're all in this together and our finance team is always available to talk everyone through their options."

These assistance measures will apply to rates and annual charges as well as water accounts and sundry debtor accounts including food premises inspection accounts.

"The coronavirus has had a huge impact on all aspects of our lives, it's something we've never experienced before and we just want to assure the community that your rates aren't something you need to stress about right now."

If you're experiencing hardship and would like to speak to Council about your options, phone 7955 7777.To find out more about Council's response to COVID-19 head to their website.

#### 'Living with Alzheimer's'

My Mum would be embarrassed at the person she is today. Her hair is short, straight and flat against her head, where all her adult life it was permed, set and combed up each day. She wears no jewellery, no soft pastel chiffon scarf. Sometimes she doesn't wear her teeth and often now she is in a wheelchair, with lolling head and vacant eyes.

Yet as I hold that gnarled old hand that sewed my baby clothes and wedding dress, that whipped up a lamb casserole or lemon delicious pudding, whacked a tennis ball until she was nearly 80 years of age, and as I look into those kind eyes often filled with a mix of hope and innocence, my Mum is still there.

Mum – Gwen Landsberry in the 1940's and in 2007

Born in Junee Reefs, near Wagga, Gwendoline O'Brien was 9<sup>th</sup> of 12 children, growing up on acreage, driving the horse and buggy 45 minutes each way to school with her 4 younger siblings. A capable country girl. Moving to Sydney, she became seamstress, tailor and homemaker extraordinaire. Mum is now the last remaining sibling.

Since 2009, when my brothers and I first noticed Mum repeating herself, we have watched as Alzheimer's has incrementally stolen Mum's memories, abilities and personality. We have had to learn to navigate an alien world – as has Mum. We have also laughed so much, Mum and I. Her 'properness' relaxed as Alzheimers progressed and we shared often hilarious times and situations.

I remember an exchange some years ago in Coles supermarket when I picked up a roasting chook from the meat area.

"What does 'RSPCA approved' mean?" Mum asked.

I said it meant the chooks weren't cooped up, that were 'happy chooks'. Mum picked up the pack, turned it over and around, looked at the dead chook, then looked at me.

"Doesn't look that happy to me," she said!

Here are a few things my family and I found of benefit to help us help

#### Mum:

- \* Engage the senses sound, visuals, smell, taste and touch to retain connection. We also made life as rich and stimulating as we could with music, movies, art, live shows, outings to the ocean, a picnic, special meals, friends and family.
- \* Mum found it hard to keep track of date and time. This clock from Aidacare Healthcare Equipment was an excellent help for several years.

- \* The National Dementia Helpline (1800 100 500) and Dementia Support Australia (1800 699 799) has fabulous online resources and are always helpful to chat with particularly helpful in navigating systems with doctors, hospitals, aged care assistance and facilities. Also just to debrief sometimes.
- \* Alzheimer's is not as much about forgetting as it is about there being holes in the short-term memory like a vegetable colander. I've seen people pushing Mum to remember when it was actually not possible for her to do so and really just caused stress. We always sought to go more into Mum's world, the present moment.
- \* I focused on what Mum could do rather than what she could not do. This way I was constantly able to give great feedback which encouraged her and helped maintain wellbeing.
- \* We did all the normal things together, like baking biscuits, buying and arranging flowers...with me picking up more and more the parts of the tasks she couldn't do.
- \* We created fabulous themed photobooks for Mum. Just simple ones printed on home printers and then bound by Officeworks. This way we kept mum connected for ages to family, friends and events her cognitive mind could no longer recall.
- \* Mum started noticing patterns and extremes, such as people who were very large or very small and took great delight in pointing this out a little loudly whilst we were shopping!
- \* Notes were important, initially to remind Mum, but then to identify items around the home and what their function was.
- \* Magic words, if something needed to be done or adhered to, were ".... the doctor said...." This was vital when we finally had to make the decision that Mum could no longer drive.
- \* My brothers wanted Mum to go into care very early for her safety. I stood by Mum in this as people are entitled to carry a degree of risk. We helped set up a good support network of neighbours, arranged Vital Call and ensured Mum had emergency numbers with large figures on the wall near the phone, once she no longer used her address book.

- \* Early on I talked with Mum about the value of her stories and memories, so we sat several mornings just chatting, with the video recording and I now have wonderful stories of her childhood, life, thoughts and impressions to hand down in our family.
- \* We ensured Will, Enduring Guardianship and Power of Attorney were all in place early so we could do what she wanted.
- \* Go easy on yourself as carer! It's natural to feel anger anger at systems, how other people treat someone with Alzheimer's, the need to repeat something 30 times and then 30 times more...mostly anger at the disease that has no cure and is taking away the person you love. Allow yourself to grieve.
- \* Retain a sense of humour! It helps get you through.

People I know have dedicated their lives for a short or long period as carer to their parents. I admire them greatly. The guilt I felt was huge in not choosing to do so. Yet Mum had told me she didn't want me to give up my life to sustain hers. In the end I helped her stay in her home, the home my great grandparents built, for 5 years longer than she could have otherwise and she had 5 good years in the nursing home where life was rich with activities, outings and visitors. It's only now, at 92, as she progresses to a new and deeper level of Alzheimer's that I would like to see her close her eyes one last time. But then that's not up to me, and so instead I look forward to visiting when the Nursing Home is open again and sitting stroking those gnarled old hands that did so much for me and singing the old war times songs that often spark a smile.

As a counsellor, art therapist and trainer, working with Mum prompted a passion for Carers, with my friend and business partner and I beginning our business We Care Central Coast!, connecting with NSW Health - writing and facilitating self-care workshops for Carers of those with Alzheimer's or disability. It was amazing at first how guilty our participants could feel for needing some time to themselves. Yet unless Carers care for themselves, they cannot sustain the beautiful care they give to the one they love. So please Carers look after yourselves and give a call if I can be of help.

#### Hendra Virus Alert

Our District Vet Dr Lyndell Stone is putting the word out that a group of experts studying Flying

Foxes and Hendra Virus have advised that winter 2020 may represent a period of heightened risk for Hendra Virus cases in horses. The case in the Upper Hunter last year suggests we must not become complacent, and that Hendra virus infections can occur in our area.

There were similar climatic and ecological conditions leading up to Winter 2011 and Winter 2017, which saw the largest numbers of cases, and the prediction is for similar climatic conditions this year. Actions now by vets and their clients can change this outcome.

To protect both your horses and yourself from this deadly virus, it is recommended to vaccinate your horses, as there is no human vaccine. There is no specific treatment for infected horses, and euthanasia is often required on welfare grounds whilst awaiting test results. Your decision whether to vaccinate your horse should be made in consultation with your veterinarian. This is an important discussion to have with your private veterinary practitioner so that they can safely attend and treat your horse in times of illness.

For further information, contact your private veterinarian, or contact Dr Lyndell at <u>Lyndell.stone@lls.nsw.gov.au</u>

#### REAL KULTCHA

All right children, move in close. Grand dad's goin' to tell you a story.

(Oh no! Not another aimless wander through the cobwebs of his addled brain!)

It was way back in 2020 – before most of you were even a glint in your mother's eye.

(Beam Me Up, Scotty – there's no intelligent life down here!)

The year didn't start out all that badly and we'd heard there was another kind of flu in Wuhan (which we'd never heard of) in China but Beijing said it was all just a rumour. They even nabbed the culprit who'd been spreading the rumour and threw him in the slammer. We all went back to watching the cricket and Big Orange (that's what we all ended calling the then President of the USA) said everything was beautiful, he was in charge, his wall was being built, it was also beautiful and he was Making America Great Again, just as he promised.

Grand dad, why did you believe the Chinese President and Big Orange?

Well, you have to understand the times. In those days China was a closed shop. If they thought you were going to say bad things about them, they wouldn't let you in or if they did and you did, they'd throw you in prison on any number of weird charges and there was little (if anything) our Government could do. All the while, the default setting of Big Orange was lying anyway! *The New York Times* (a very respected newspaper then) tried to keep track of the number of lies he told but when (according to them) the number topped five figures nobody believed them! It seemed in America, lying had become the new normal and most of the population just switched off.

Then the flu - that didn't exist, according to China – began breaking out all over the world. It seemed it began in a Wuhan wet market and these are everywhere in Asia. No health rules seem to apply in them and all manner of birds and animals are butchered and sold there. The new strain of flu seemed to have crossed from these animals – possibly bats – and then came Chinese New Year! This saw lots of folk going back to and across China to visit relatives and that period fell at the end of January. Because there was a global economy at the time, it meant lots of people were travelling everywhere and the new disease went with some of them. The fellow who had blown the whistle in China turned out to be a doctor and before we could even learn his

name, he'd caught it and died! It had also been given a name: COVID -19.

That's good isn't grand dad?

Well, I suppose so. It certainly gave the doctors something to write on the Death Certificates! That's better than what happened back in the 19<sup>th</sup> century. When somebody died then and it couldn't be explained, they just wrote: *Died From A Visitation Of God*.

Grand dad, don't be silly. How many deaths did it cause anyway? You kids need to do a lot more reading. Around mid April, 2020 in the USA there'd been over 849,000 cases and over 47,500 deaths. World wide (at the same time) there was over 2½ million cases and over 183,000 deaths!

So what else happened, grand dad?

Well, here in Oz we closed our borders and only Australian citizens were allowed to come in!

Are you for real, grand dad? Nobody was allowed in?

Nobody. No uni students, sporting teams or non-Australian passengers on any aircraft flights. In fact, some of the photos of the time show empty and idle jet aircraft parked on tarmacs and Virgin Airlines went to the wall. There was no football of any kind either.

Grand dad, now I know you're being silly! They'd never stop football. They did and they postponed the Tokyo Olympics to 2021 as well. There was a silver lining though, there was no basketball either! All that was on TV were endless re-runs of past football grand finals of ARL and Oz Rules. The only sports that were allowed to continue were horse and dog racing, though nobody was allowed to go to the courses and watch and the prize money was reduced. Golf could still be played in some States but not in others.

Grand dad, you're being silly again. That doesn't even make sense. I didn't say it made any sense. My brother-in-law in Victoria was very upset because he couldn't play but we in NSW could, we had lots of restrictions on us. Only two players at a time were allowed down the fairways, only one to a cart, we weren't allowed to touch the flag sticks and as there were no rakes in the bunkers they were all classed as GUR (Ground Under Repair) so we picked the balls out and played the next shot from the grass! Oh, and all the schools were closed.

Finally, something that makes sense, grand dad!

Lots of businesses had closed as well so parents, with help from schools via computers and the *www*, assumed the role of teachers and studies went on.

How did that go?

Not that well in the end. Your great aunt told us her two kids had been expelled and the Education Department fined her for drinking on the job!

Talk at you next month, *The Hillside Critic*

Life in Isolation

Well here we are living in isolation but life goes on ... it's different but we're coping and adapting. Instead of looking forward to the children off at school many parents like my daughters, were looking forward to the holidays as a *break* from on-line schooling.

From family events such as anniversaries and birthdays ... 'best one ever' was my son in law's comment on his 'at home' 50<sup>th</sup> ... to community ones such as Easter and Anzac Day, we're being resilient and innovative. In lieu of grandchildren's visits we post cards; instead of going to Easter services we watch church on TV.

Easter is still significant even in our current crisis, as this quote reminds us — "Look at the bigger picture, I doubt that in 2000 years people will still be talking about the Corona virus. And yet here we are still talking about the resurrection of Jesus"

On Anzac Day, instead of parades and services we viewed our grandson on Facebook playing 'The Last Post' on his trumpet at 6 am (not sure how he felt about the early start).

I love the different ways people found to still honour our service men and women ... flags ... poppies ... lighting candles in their driveway

Greater love has no one than this, to lay down one's life for his friends (John 15:13).

That's what many have done and are still doing  $\dots$  that's what Jesus did.

Loving others goes hand in hand with loving God.

Just as there were miraculous stories of survival from the bushfires, the same is true of Corona virus ... those amazing recovery stories of people in their nineties and even older!!

Then there is the story about an expectant therapist who tested positive, and then gave birth while in a medically induced coma on a ventilator. All the rest of the family, including the new baby, tested negative ... she named the baby Ava meaning 'breath of life'.

Another inspiring story on **YouTube** is about a man named **Lee McClelland**; he believes God sent a hospital cleaner to encourage him when he was fighting for his life and no one else could be with him ... and who later even brought him snacks he was longing for.

I believe prayer is always significant in our lives ... in these stories people were praying.

We might feel we can't do much about the virus, but what we CAN do is pray ... for our families ... friends ... health workers ... national leaders

Commenting about the sacrifice being required from global health workers, an emergency physician said, 'I have thought about the power of prayer, and wondered who is praying for me and my colleagues around the world'.

If you would like to pray for a health worker, a website called *carewithaprayer.org* will supply you with details; this also applies if you **are** a health worker and would like to know someone is praying for you.

We might be feeling isolated but we're not alone because God says He will never leave us

Hi everyone,

Just a note from Barb to let everyone know that the 16 girls who took part in the Coasttrek walk on the 27th of March. "We raised over **\$8,000**. We were unable to do the walk, with our crazy world at the moment. But all the money has been given to Beyond Blue. So a big THANK YOU to everyone who helped by supporting us all".

Now next thing, *Barb*, *Jess* and myself would like to wish all of our wonderful clients a fantastic Mother's Day. Gift vouchers are available from us all, and Belinda will be extremely happy to fulfil them when she is back.

Jess and Barb have business as usual, and as for Myself I can't wait to be back to work!

I am missing everyone immensely.

Thinking of everyone, stay safe, healthy and sane.

Belinda

#### SEEKING A NEW COMPANION

We have recently said farewell to our loyal kelpie companion and miss his company dreadfully, so have decided to find another dog to keep us busy and give a loving home to.

We are looking for a medium sized dog, doesn't have to be a pup, but as we now live in town, needs to be quietish and not a fence jumper. Will be loved and exercised and part of the family.

If you know of one available, please phone me on **0423 090 768** Sue Wilson

**Need to advertise** something for sale or wanted to buy or a freebie?

An announcement of a birth, birthday, passing? Some personal message?
